Installazione elettrica

3

Uso conforme

Le istruzioni di montaggio sono parte integrante del prodotto Duravit e si rivolgono a persone che realizzano l'installazione elettrica per il prodotto. Le istruzioni di montaggio devono essere lette con attenzione ed essere disponibili in qualsiasi momento.

Destinatari e competenza

L'installazione elettrica deve essere eseguita solo da elettricisti qualificati.

Tipo di protezione di prodotti Duravit

Il tipo di protezione di prodotti Duravit sotto tensione è conforme almeno allo standard IP 44.

Classi di protezione delle lampade

Classe di protezione	Linea di collegamento
I	H05VV-F, 3x 1,5 mm ²
II	H03VV-F, 2x 0,75 mm ²

Direttive e norme

I prodotti Duravit sono conformi alle direttive di marcatura CE:

Simboli

Simbolo	Significato
>	Operazione richiesta

Smaltimento

- Non smaltire il prodotto nei rifiuti domestici. Ai sensi della Direttiva RAEE i prodotti con questo simbolo devono essere consegnati a centri di raccolta pubblici per vecchie apparecchiature elettriche ed elettroniche per essere smaltiti.

Indicazioni di sicurezza

Pericolo di morte

Il contatto con la corrente provoca una scossa elettrica.

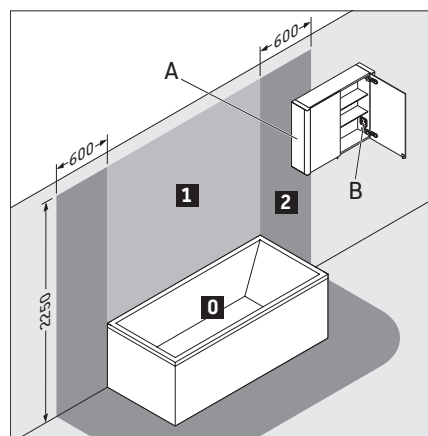

- > Realizzare l'installazione elettrica nel rispetto delle direttive e norme nazionali, europee e internazionali.
- > Rispettare le zone di protezione per ambienti umidi secondo le norme specifiche del Paese in questione, le disposizioni normative locali e le direttive per bassa tensione.
- > In ambienti umidi o in altri ambienti con caratteristiche particolari realizzare l'allacciamento elettrico con un interruttore magnetotermico GFI.
- > Prima dell'installazione scollegare i componenti elettrici dalla rete elettrica.
- > Controllare che tutti i componenti siano scollegati dalla tensione elettrica.
- > Evitare che l'alimentazione elettrica venga inserita accidentalmente.

Penetrazione di corpi estranei e acqua

La presenza di corpi estranei o acqua nell'apparecchiatura provoca un cortocircuito che può causare danni al prodotto.

- > Rispettare le zone di protezione per prodotti Duravit.

Zone di protezione

A L'armadietto a specchio con IP 44 può sporgere in zona 2.

B In presenza di una presa nell'armadietto a specchio, la presa deve essere montata al di fuori delle zone.

Classe di efficienza energetica

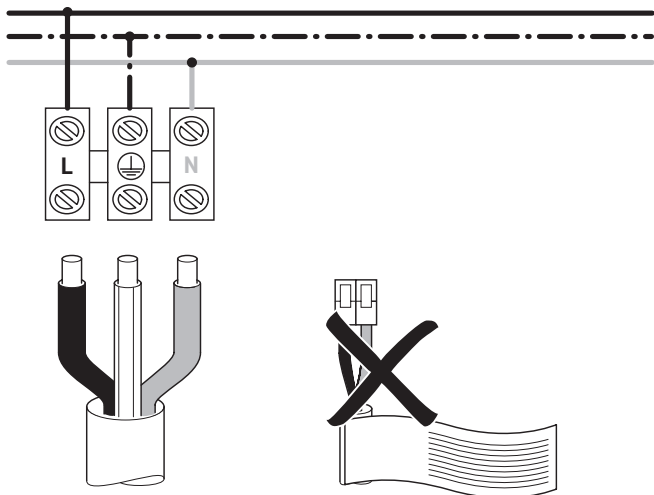

- Questo prodotto contiene una sorgente luminosa della classe di efficienza energetica F.

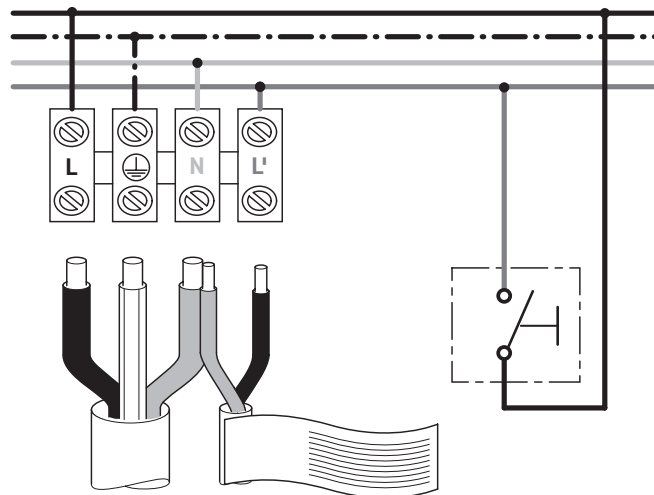

Installazione elettrica

Installazione elettrica per classe di protezione I

Allacciamento elettrico

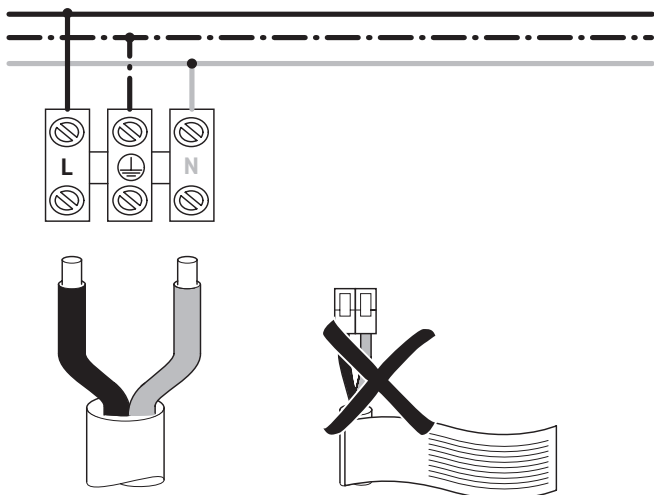

Kit opzionale di connessione di un tasto esterno

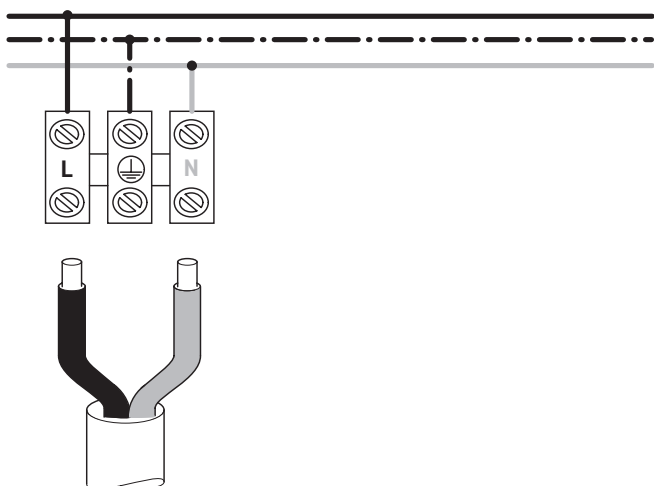

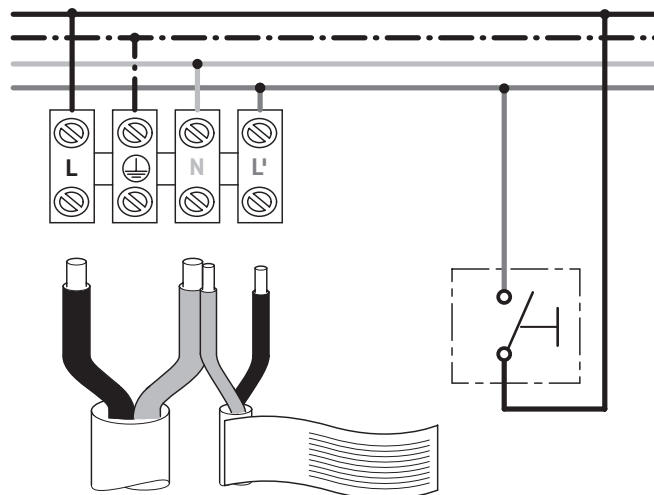

Installazione elettrica per classe di protezione II

Allacciamento elettrico

Kit opzionale di connessione di un tasto esterno
